HARD ROCK

CONSTRUCTION, L.L.C.

City of Central **Solicitation No: 2016-001**

Hard Rock Construction, LLC is a certified small business located in Metairie, Louisiana. Established in 1989, Hard Rock has the ability to self-perform multiple construction and civil tasks, such as: demolition; repair; debris removal; paving; grading; earth work; water, sewer and drainage replacement and connections. Hard Rock has performed disaster recovery projects since Hurricane Andrew (1992) and has successfully completed disaster projects for the following municipalities: City of New Orleans; City of Kenner; St Bernard Parish and Plaquemines Parish. For any additional information please visit our website: www.hardrockconstruction.com.

- 1) Through experience Hard Rock Construction, LLC has developed a management team that understands the proper steps to a successful emergency contract. It is formed by communication and understanding of all elements within the affected area. This includes the handling of mixed debris which is segregated by material in order to be properly disposed (all while preserving the land affected by debris storage). The hands on team consist of Owner, Project Manager, Operations Manager, Quality Control, Safety Supervisor and a strong labor force. Hard Rock has established a trusted name with FEMA, State and Local Authorities from past successful contracts.

- 2) Hard Rock Construction has performed a large portion of specialty debris removal in the City of Kenner, as well as, Plaquemines Parish. In the City of Kenner, over 100 hazardous stumps were removed including all vegetative material separated; stored and disposed of properly. This included the management and operation of a TDSR. In Plaquemines Parish, over 100 miles of canal-waterways with limited access were successfully cleaned and restored for positive drainage. Selective Demolition of structures were performed throughout Plaquemines Parish following all regulations of LDEQ. White goods disposal were performed both for City of Kenner and Plaquemines Parish with over 10,000 units handled.

3) Hard Rock Construction understands that communication with the community is the key to keeping the recovery moving. This is formed by multiple meetings and taking the community's information which allows the team to form a detailed plan that the all entities can work around. As a team, Hard Rock Construction will assist the City of Central with keeping the community informed during this recovery process. Hard Rock has a 24 hour phone number (504-915-1174) with email address (info@hardrockconstruction.com) to handle all concerns in a timely manner.
